## Looking for a Part-Time / Internship

Since im starting my last year of formation as an IT expert at EPITECH, I'm looking for a part-time job and an internship. My past experiences make me confident about my skills and knowledge, especially concerning project leading and people management. I am also a great communicator, which makes me a good speaker and leader.

## Experience

○ March 2023 - July 2023

Inosys | Sainte-Marie

### Internship - Project Lead

Development of a cash registry software. Definition of the tasks and deadlines with the IT team. Managed the project development using YouTrack.

○ July 2022 - August 2022

Mat&Com | Saint-André

### Freelance IT Technician

Planned the installation and maintenance of electronic payment terminals. Also solved client's issues and did on-site intervention.

○ August 2021 - December 2021

Inosys | Sainte-Marie

### Internship - Developer

Development of mobile applications, APIs linking and creation of marketing tools. Led and managed projects (tasks and deadlines).

○ August 2020 - September 2020

Inosys | Sainte-Marie

### IT Technician

Checkouts installation and maintenance with the IT team.

## Projects

### EnVRonment

Service that allow a user or company to create and simulate environment in VR.

Lead the project in a 7-person team. Regular Sprints and presentations are made. This project is still in progress.

### SatisfactionZ

Service allowing the measurement of client's satisfaction in supermarkets, gas stations or stores...

Planned the project timeline and development.

### Prod-Manager

Its mainly purpose is to keep track of your inventory or packages, like a lite ERP application.

Planned the project and developed it. Then presented it as a school project in front of other students and teachers.
